## Using the Speaker

### Charging the Speaker

Insert the small connector of the supplied micro-USB cable into the micro-USB charging port on the back of the speaker. Insert the large connector into the USB port on a computer, a USB charging device, or **5V USB adapter** (*not included*) and plug into a wall socket.

The charging LED indicator will **turn RED** while charging and turn OFF when fully charged.

**i** Make sure you charge your speaker for at least 2 - 3 hours before using it for the first time.

### Powering ON/OFF

- Slide the [POWER] switch to the ON position to power the speaker on. A tone will be heard and the speaker will enter Bluetooth pairing mode or re-pair to a previously-paired device.
- Slide the [POWER] switch to the OFF position to power the speaker off.

### Playing Music

To enjoy music wirelessly on your speaker, make sure you are paired to a Bluetooth-enabled device. Playback and volume adjustment can be controlled via the paired device. If you are pairing the device for the first time, please consult the **Pairing the Speaker** section.

### Pairing the Speaker (Bluetooth)

1. Turn the speaker on by moving the [POWER] switch to the ON position. A tone will be heard and the Bluetooth LED indicator will **quickly flash BLUE**.
2. Set your mobile device to search for Bluetooth devices. When it appears, select **SBT707** from the list of found devices.
3. Once successfully paired, a tone will be heard and the Bluetooth LED indicator will **slowly flash BLUE**.

**i** If a previously paired device is in range when the speaker is turned on, they will re-connect to it automatically.

### On iOS and Android Devices

- Go to **Settings -> Bluetooth**

**i** The screenshots above are typical of many Bluetooth-enabled devices in the market today, and are used to assist in the explanation of the pairing process. Your Bluetooth-enabled device's interface and interaction with the device may differ slightly from the illustrations above.

## Legal Information

### READ CAREFULLY AND KEEP THIS MANUAL

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Caution:** Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
